

BOOST COLOR - WALLS

General: The Boost Color ceramic wall tile & porcelain slab collection was created by renowned Italian designer Piero Lissoni. Created in 14 beautiful shades of pastel, they harmoniously marry with the Boost Balance collection of porcelain floor & wall tiles, slabs & pavers.

These contemporary colourways are also highlighted with a unique collection of decors, including brick mosaics, 3D pleated surfaces and frog skin appearance in 3 specific colours.

This modern elegant wall tile series is every interior designers dream - a stunning palette of durable and interesting surfaces in large format proposals.
